# Rocket stove at Munsel-Ling School

## PROJECT COMPLETION REPORT

### FUND RECEIVED

**1st Installment: - 9237 CAD (Received)**

**2<sup>ND</sup> Installment :- 8238 CAD (To be received)**

**3<sup>rd</sup> Installment :- 1000 CAD (To be received)**

### OBJECTIVE OF THE PROJECT

1. To provide Rocket stove for Classrooms and hostel blocks , staff quarters etc )
2. It's based on rocket stove technology, which consumes 50% of less wood, when compared to normal Bukharis.
3. To ensure students a warm and healthily environment to study.

### NEED OF THE PROJECT

Life in Spiti Valley during winter period is very hard when the temperature drops to -30c, during this period of time the people used to keep their houses burn wood and cow dung which has a bad impact on the health. At present we use normal iron word burning stove in each and every classrooms of the school building whether in Office or Principal office. It also creates lots of smoke

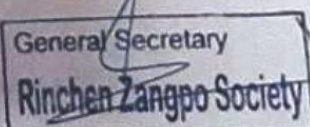

### DESCRIPTION OF THE PROJECT

This is new technology for Himalayan region to keep rooms warm during winter with wood. It is 90% smokeless, using clean burning dual combustion chamber technology that burns smoke and gives double heat for the same amount of wood. We propose to buy for all classrooms, staff rooms and dining hall.

At the First phase we have ordered and install 33 Rocket stoves.

1. At Hostel Blocks :- 23
2. Classrooms = 10

**FOR THE 2<sup>ND</sup> PHASE WE HAVE ORDERED THE NEXT  
35 REMAINING ROCKET STOVES on**

		
<b>RINCHEN ZANGPO SOCIETY FOR SPITI DEVELOPMENT</b>		
<i>(Registered under the Societies Act XXI of 1860)</i>
